SUMMARY

Front-End Developer and Web Designer with 1.5+ years of experience building responsive websites, business applications, and production systems using HTML, CSS, JavaScript, React, TypeScript, and Python. Experienced in client communication, project coordination, website deployment, and team collaboration across multiple live projects.

EDUCATION

SRM Institute of Science and Technology

2025 - Pursuing

Master of Business Administration

Sri Muthukumaran Arts & Science College

2021 - 2024

Bachelor of Science in Computer Science

WORK EXPERIENCE

Axle Global Technologies

Dec 2025 - Present

Developer

- Led 5+ concurrent client projects and coordinated a cross-functional team of 8+ developers, interns, and marketing staff, delivering projects on schedule.
- Communicated directly with clients to gather requirements, provide project updates, conduct demonstrations, and support project planning and delivery.
- Developed and maintained 10+ responsive web applications and internal systems, improving operational efficiency and reducing manual work.
- Managed shared hosting environments and maintained live client websites through cPanel, including deployments, updates, and production support.

ImpressBSS

Nov 2024 - Dec 2025

Web Designer

- Built and customized responsive client websites using HTML, CSS, Bootstrap, and JavaScript, deployed via cPanel for live production use.
- Resolved 50+ UI and responsiveness issues across production websites while maintaining zero reported downtime.
- Collaborated with senior developers during trainee phase to understand real-world development workflows, testing, and deployment.
- Used basic PHP to integrate dynamic components and improve content reuse across pages.

SKILLS

- **Core Frontend** : HTML, CSS, SASS, Bootstrap, Tailwind, JavaScript
 - **Frameworks** : React, Next.js, TypeScript
 - **Back-End** : Python, PHP
 - **Version Control & Deployment** : Git, GitHub, cPanel, hPanel
-

PROJECTS

CADD Center Sriperumbudur – Training Institute Website

axleglobaltech.in/CADD/

- HTML, CSS, Bootstrap, JavaScript, cPanel
- Responsive training institute website with structured course and enquiry sections
- Built user-friendly responsive layouts and maintained as a live client website through cPanel

BNI Phoenix Membership Day 2026 – Event Management System

- React, TypeScript, JavaScript, Python
- QR-based event management system developed for attendee tracking, check-in management, and event coordination during a live BNI business event.
- Built and deployed under tight deadlines with real-time event support and on-site production handling.

Visitor Management System

vms-front.vercel.app

- Next.js, TypeScript, Tailwind CSS
- Frontend application built using Next.js and TypeScript with a component-based architecture
- Integrated with backend APIs and implemented a responsive UI using Tailwind CSS

RheinCS – Corporate Website

rheincs.com

- HTML, CSS, Bootstrap, JavaScript, SVG, cPanel
- UI-focused, animation-enhanced corporate website with responsive design
- Implemented SVG-based animations to improve visual flow without heavy libraries
- Deployed and maintained as a live client site in production

ImpressBSS – Website Design Service Page

impressbss.com/WebsiteDesign

- HTML, CSS, Bootstrap, JavaScript, cPanel
- Built a responsive business service page for website design offerings
- Developed structured UI layouts and deployed to production via cPanel

KG Electric Mobility – E-Commerce Website

kgelectricmobility.com

- HTML, CSS, Bootstrap, JavaScript, cPanel
- E-commerce website with product listings, category structure, and responsive UI
- Live corporate e-commerce website for an electric mobility business with structured product and service sections

RoveVIP – Fashion E-Commerce Website

rovevip.com

- HTML, CSS, Bootstrap, JavaScript, cPanel
- Fashion e-commerce site with product listings and responsive UI
- Built product display sections and deployed to production
